

# Revitalise your body with Trion:Z™

The human body absorbs positive ions from electronic equipment, mobile phones, electrical wiring, Wi-Fi zones and machinery encountered in modern life.

Physical stress and exposure to UV rays also elevates the positive ion levels within the body.

Research shows that excessive positive ion levels are associated with fatigue, lack of concentration, muscle and joint aches, and the feeling of nausea.

Trion:Z™ minus-ion properties counteract the positive ions created by modern technology, daily stress and physical activity.

Trion:Z™ products are worn by hundreds of professional athletes worldwide on the courts, fields and tracks of tennis, basketball, football, cricket, squash, baseball, volleyball, racing and action sports and by over 250 pros on the PGA Tour, LPGA Tour, and Champions Tour.

## Trion:Z™ TRIONZ

Magnetic ionic bracelets. Modern day technology and active lifestyles create natural and man-made stress on the human body. Trion:Z brings the body into balance. Available in a choice of 28 colour combinations.

# Wilson

## Wilson Ultra Ultimate Distance BW1

Ultra golf balls have always combined excellent value with outstanding performance.

Branding Area (mm) 24 dia.

## Wilson Profile Power BW7

The Profile Power golf ball is a blend of power, control and maximum distance.

Branding Area (mm) 24 dia.

## Wilson Ultra Straight Distance BW2

Ultra golf balls have always combined excellent value with outstanding performance.

Branding Area (mm) 24 dia.

# Wilson Staff

## Wilson Staff DX2 Soft BW4

The softest distance ball on the market today.

Branding Area (mm) 24 dia.

## Wilson Staff FG Tour BW8

The FG Tour is Wilson's softest, highest-spinning multi-piece urethane ball and was created as a low compression solution for competitive players looking for tour-calibre spin, maximum greenside control and excellent distance.

Branding Area (mm) 24 dia.

## Wilson Staff DX3 Soft Spin BW9

The all new DX3 Soft is designed for players that love the distance and feel of Dx2 Soft but prefer additional shot-stopping spin and greenside control. Traction Control Technology keeps the DX3 Soft on the club face longer and engages more grooves for superior spin control over similar multilayer golf balls.

Branding Area (mm) 24 dia.

# SRIXON®

## Srixon Z Star BS5

The Z-STAR is a high performance multilayer ball with low compression and extremely soft feel. Provides exceptional feel around the green and distance control with the putter. This ball performs best with driver swing speeds between 80mph and 105mph.

Branding Area (mm) 24 dia.

## Srixon Distance NEW BS1NEW

The NEW AND IMPROVED premium Distance Srixon golf ball has higher initial velocity and a penetrating ball flight for greater distance. A responsive light feel and exceptional durability make it ideal for those with a swing speed of 80mph or greater.

Branding Area (mm) 24 dia.

## Srixon AD333 NEW BS3NEW

The new and improved version of it's best selling AD333 ball features an even larger core, thinner cover and improved aerodynamics. The ball is now even faster off the club face and longer than it's predecessor, yet with the same great feel and playability.

Branding Area (mm) 24 dia.

## Srixon Soft Feel BS2

Penetrating higher trajectory for greater carry and distance. Higher launch angle and lower spin for greater directional stability. Superb soft feel on all shots from tee to green.

Branding Area (mm) 24 dia.

# N I K E G O L F

### Nike One Tour *BNK4*

Distance, accuracy, control and feel. The NIKE ONE Tour – designed to be the most complete ball you will ever play.

Branding Area (mm) 24 dia.

### Nike Power Distance Long *BNK1*

Features a high velocity core and dimple pattern designed to reduce drag for more distance off the tee.

Branding Area (mm) 24 dia.

### Nike Power Distance Soft *BNK3*

Low compression core and softened ionomer cover to provide longer distance with added feel.

Branding Area (mm) 24 dia.

### Nike Power Distance High *BNK2*

A responsive core and unique dimple design for soaring distance and softer landings.

Branding Area (mm) 24 dia.

### Nike Juice Plus *BNK6*

Enhanced formula designed to maximize distance performance and improved feel.

Branding Area (mm) 24 dia.

### Nike One Vapor *BNK7*

Designed for the skilled game. NIKE One Vapor – the perfect balance of distance and control.

Branding Area (mm) 24 dia.

### Callaway HX Hot Plus *BC4*

The longest three-piece golf ball in the Callaway Golf line up is now even longer with better feel. The new HX Hot Plus continues to push the boundaries of ball speed allowed under the rules of golf.

Branding Area (mm) 24 dia.

### Callaway Big Bertha Diablo *BC1*

The Big Bertha Diablo Golf Ball offers lower driver spin and softer feel than most golf balls on the market for superior accuracy off the tee and better feel on every shot.

Branding Area (mm) 24 dia.

### Callaway Warbird Plus *BC2*

A redesigned golf ball featuring an all-new faster core construction and the addition of HEX Aerodynamics.

Branding Area (mm) 24 dia.

### Callaway Tour i(s) *BC8*

The Tour i(s) is the softest ball Callaway has produced, but what makes it special is a large degree of spin separation, which makes it possible to put a lot of spin on iron shots and very little spin on drives.

Branding Area (mm) 24 dia.

### Callaway Tour i(z) *BC9*

New Callaway golf ball for 2010. Please contact our sales team for more information.

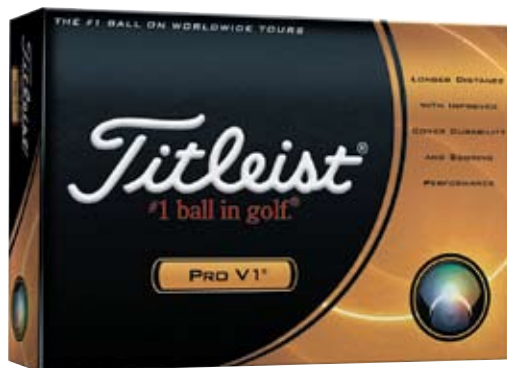

Branding Area (mm) 24 dia.
